Surgical Microscope

Flexible Optics Rotating Assembly (FORA)
Integrated Depth of Field Strengthen Device
Fluorescence and White Illumination
Built-in 4K Camera System
198-455mm Variable Objective Lens

ALLTION®

Seven Features

Flexible optics rotating assembly (FORA)

Integrated depth of field strengthen device

Fluorescence and white illumination

Built-in 4K camera system

198-455mm Variable objective lens

Manual 6-step magnification

Single-handed operation

Single-Handed Operation

Without taking your hand off the handle, the magnification knob, Freeze Knob, Photo and Video Recording Knob and variable objective lens can be operated with your thumb, making it easy to perform common functions with one hand.

Flexible Optics Rotating Assembly (FORA) Pendulum Function by FORA Is Available

FORA including 90° binocular extender, pendulum rotation device and beam splitter (2:8/ 5:5)
It allows operator to remain his natural and straight posture while he is observing the patient with a certain angle.
The operator can change the direction of the optical pod only, while keeping the binocular at its position.

Left inclined set

Vertical set

Right inclined set

Built-in 4K Camera System

Photograph

Video recording

Freeze

Contrasting photo-photo, photo-live images

Mouse operated

USB storage

Double HDMI channel output

Playback

Built-in WIFI function

Wireless foot control

Manual 6-Step Magnification

With the 198-455mm variable objective lens, the magnification range is from 1.4X to 22.8X
1 more step than the conventional 5-step magnification for higher magnification

Fluorescence and White Illumination

2 modes of illumination, white and fluorescence.
The light switch knob is linked to the anti-violet shield, which is automatically moved into the light path to protect the operators' eyes when switched to fluorescence mode.
Fluorescence mode: aids in the identification of natural tooth tissue and artificial material boundaries.
AM-5000 fluorescence mode helps the operators to distinguish the natural hard tooth tissue from the dental composite resin material. This clear visual distinction not only help the operator to quickly target the affected area, but also save operators' valuable chair time during the excavation process.

Light switch knob

White light

Fluorescence

198-455mm Variable Objective Lens

Super wide working distance: 198-455mm
Suitable for operators of different heights
Objective lens 250mm/300mm/400mm for options

Main Specification of AM-5000 Series Surgical Microscope

	Type	Standard		Optional
Optic	Magnification	Manual 6-step magnification		
	Objective lens	198-455mm Variable objective lens		Objective lens(250mm/300mm/400mm)
	Magnification range	1.4X-22.8X		
	Binocular	0-180°Inclined binocular head with knob of pupillary distance adjustment		45°Binocular/straight binocular
	Range of interpupillary distance	50mm-75mm		
	Eyepiece	12.5X/18mm		10X/21mm
	Glass technology	Premium quality apochromatic technology		
	Diopter	±7D		
	Optical extender			30° Binocular extender+ beam splitter+rotation device; 45°/90°binocular extender with angle rotation device
Illumination	LED	Long-life LED≥50,000 hours		
	Illumination	Illumination up to 80,000lx with a 250mm fixed focus objective		
	Color rendering	≥85%		
	Color Temperature	5500K		
	Light spot	Three types of light spot: maximum/ medium/minimum(without filter) Two types of filter:green/ yellow		
	Fluorescence mode			Fluorescence mode
Power supply	Camera	Built-in 4K camera(see the table below for detailed parameters)		
	Rated Voltage	Input: AC100-240V,50/60 HZ; output: DC12V/3A		
	Input power	25-80VA		
Support system		Floor Stand		Fixed floor stand/floor stand with 950 pantograph arm/ceiling mount/low position wall mount/ high position wall mount/ table mount/table clamp mount

Specification of Built-in 4K Camera

Senor	1/1.8” SONY 8 million pixel high-performance, high sensitivity and low-noise CMOS
Interface	HDMI 2.0 1pc/ USB 2.0 1pc (for mouse)/USB 3.0 1pc (for connect USB flash disk)/ 3.5 audio interface 1pc (for sound recording)
Resolution	4K (3840*2160) 60FPS (16:9)
Storage	Connect external USB flash disk (support FAT32 and NTFS formats); picture: JPG format; video: MP4 format
WIFI	Built-in WIFI function, it can transmit images
Optical data	Camera split ratio: 2:8; beam split ration: 2:8 (5:5 for option)
Video resolution	4K 30FPS, 1080P 30FPS
Picture resolution	8M (3840*2160), 2M (1920*1080)
Basic functions	Freeze, photograph, video recording, automatic exposure, white balance, play back and cross curve, sound recording
Image effect	Exposure value, best brightness, gain, red gain, blue gain, saturability, contrast ratio, definition and HDR
Advanced functions	Horizontal flip, vertical flip, zoom out, zoom in, AOI and image comparison
System settings	Automatic/autonomous naming, show/hide time, show/hide LOGO, eleven languages for option (Chinese, English, German, French, Spanish, Italian, Portuguese, Swedish, Japanese, Russian, Polish), image resolution, naming setting, system update, restore default, version information

Optional Accessories

0-180°Inclinable binocular

45°Inclinable binocular

Straight binocular

FORA (Flexible optics rotating assembly)

ALL-CAM 4 (4K camera system)

ALL-CAM2 (2K camera system)

30°Binocular extender + beam splitter + rotation device

Mobile phone adapter

90° Binocular extender + rotation device

45°Binocular extender

30°Binocular extender + rotation device

Face-to-face with stereo bridge

2:8/ 5:5 Beam splitter

Laser protecting filter

Angle rotation device

Depth of field strengthen device

198-455mm Variable objective lens

250-430mm Variable objective lens

200-310mm Variable objective lens

10X/21mm; 12.5X/18mm Eyepiece

Optional Outfits

SLR camera adapter

F180/ F340 Camera adapter

DSLR Camera

2D assistant scope

3D assistant scope

Wireless transfer kit

HDMI capture card

Interaction system between teaching & learning of surgical microscope

Monitor

Monitor bracket

Wireless foot pedal

Objective lens splash guard

Sterilization cover

Endontic Simulator

Optional Outfits

Face-to-face with stereo bridge kit

Face-to-face with stereo bridge

+

0-180°Inclinable binocular

2D Rotation binocular assistant scope kit

Beam splitter (2:8/5:5)

+
